Wilson Elements -Tech Update

Now Available

In the next few months we will be rolling out an extensive range of new and improved designs with the focus being on allowing appliance service technicians to have the right part on hand more often.

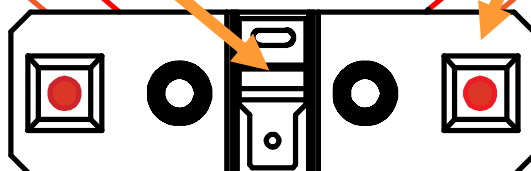

Adjustable & changeable radial support Brackets for pin & screw type fixing.

New Universal models for European based fan oven elements with central bracket hole such as SMEG, Whirlpool and others.

FE-16	1800W	2 Turn New Euro Fan Oven Central hole
FE-17	2100W	2 Turn New Euro Fan Oven Central hole
FE-18	2500W	3 Turn New Euro Fan Oven Central hole

Wilson Elements is proud to be actively designing & improving products for the appliance service market. With this in mind we hope you find this new style "fit guide" tech update useful.

As always, any feedback on improvements in our designs are always welcome!

This sheet may be used as a fit guide if un scaled
